

DEAR MEMBER,

Welcome to the Healthcare Highways Rx Pharmacy Discount Card Program! This program saves you additional money when purchasing medications at your pharmacy.

IT'S EASY, HERE'S HOW IT WORKS!

Simply show your CerpPassRx Pharmacy Discount Card along with your current insurance card at the pharmacy to pay the lowest available price for your medication. You will either pay your copay or a prescription discount, when available. Your CerpPassRx Pharmacy Discount Card will even work during those times when your prescription insurance benefit does not apply. For example, when you are filling a medication that is not covered under your plan, or if you are no longer eligible for your prescription benefit, simply show your CerpPassRx Pharmacy Discount Card and you'll still pay the lowest available price!

WHAT ABOUT OVER-THE-COUNTER MEDICATIONS?

Your CerpPassRx Pharmacy Discount Card will give you a discount on many over-the-counter medications and supplies. Over 58,000 pharmacies throughout the country participate in the CerpPassRx Pharmacy Discount Card program. This includes major pharmacy chains and local neighborhood drug stores.

You can receive this discount for life! The CerpPassRx Pharmacy Discount Card will always provide the best prices on medications - even if you do not have prescription insurance! Simply keep your CerpPassRx Pharmacy Discount Card and present it at the pharmacy to receive the best available price for all your prescription and over-the-counter medications.

If you have any questions, please call the customer service number located on your CerpPassRx Pharmacy Discount Card. Cut off the bottom portion on this letter and present it at your next trip to the pharmacy! Enjoy saving up to 80% your next prescription medication!
