

# Basic Formulary

## Preferred Drug List

### Medtipster 2024 Basic Formulary

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

**PLEASE NOTE:** Brand-name drugs may move to non-formulary status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program. For specific questions about your coverage, please call the Medtipster member services team at (877) 226-2378 or visit our website at [medtipster.com/engage](https://medtipster.com/engage).

**Drugs listed in CAPS are Brand Drugs and generic products are listed in lowercase letters.**

<p>           fentanyl patches            FETZIMA            FINACEA FOAM            finasteride            fingolimod            FLECTOR            fluconazole            fluocinonide
